

Chris Castle

109b 19th Avenue, Seattle, WA 98122 — +1 206.444.4344 — chris@crc.io

I conceptualize, design, manage, and build digital products. I like to solve challenges previously thought impossible and help my team grow along the way. I'll do whatever necessary to keep moving toward the goal: write code, prototype hardware, hire new team members, coach employees, or define and communicate an inspiring product vision.

EXPERIENCE

Founder, Product Manager, Software and Hardware Engineer ctrl industries - Seattle, WA - March 2015 to present

- Founded B2B Internet of Things Hardware+SaaS business focused on bringing better technology to "analog" industries
- Conducted primary and secondary research to understand market needs and formulate product vision
- Architected and built wireless sensor hardware prototype and SaaS technology platform

Technical Product Manager Simply Measured - Seattle, WA - July 2012 to August 2014

- Developed, planned, and directed launch of report management product for Simply Measured's analysts, making report creation process faster and more powerful while reducing defect rate; grew and managed six-person team including engineers and a junior product manager
- Managed four-person analyst team responsible for design and implementation of Simply Measured's product, 50+ customer-facing reports
- Adapted my role from product management generalist to product owner of Report Builder during substantial company growth (20 to 150 employees)

Product Manager, Cloud Technologies VivaKi Nerve Center - Seattle, WA - February 2008 to July 2012

- Created product vision, prototyped (Node.js, Ruby), and directed development of multi-agency API to allow internal development groups to access and use our managed AWS infrastructure
- Defined functionality and led development of data processing engine, processing ~1PB/week (Hadoop / AWS Elastic MapReduce)
- Collected business requirements from 1,000+ users and defined product spec for centralized marketing data storage and provisioning system

Media Technology Specialist

Client Service Engineer Avenue A | Razorfish - Seattle, WA - October 2005 to February 2008

- Managed feature development of online messaging, tracking, and reporting products
- Guided development of in-house web analytics tool using the Atlas ad-serving system and other web technologies

Strategy Analyst Microsoft - Redmond, WA - March 2004 to March 2005

- Assessed advertising and technology markets in 30 countries to determine the potential viability of MSN's business in those markets
- Supported strategy creation for MSN's worldwide sales and marketing organization

Research Analyst The Brattle Group - Cambridge, MA - August 2002 to March 2004

- Created econometric models to support expert testimony for electric, telecommunications, financial, and natural gas companies
- Taught in-house SAS (statistical analysis package) classes
